Founded in 2008 in Shenzhen, China, Shenzhen CHT Technology Co., Ltd. is a global company specializing in the design, development and manufacturing of gamepad products, specializing in the development, production and sales of game console controllers such as SWITCH, Xbox one, PS4, PC and mobile phones. We own SMT Line, mold making workshop, injection workshop, 8 production lines, can provide you with perfect service and more cost-effective products. Most of our products have been authorized by FCC, CE, ROHS, REACH, CPSIA.

At the same time, in order to ensure excellent quality levels, we have implemented ISO9001 quality management system and BSCI certification, ensuring that all products are strictly monitored and reliability tested at every stage of the production process. Defective products are removed and disposed of to ensure 99.9% customer satisfaction.
